**Arrange as follows:**

Starting with the tip on the left, fold the corners of the triangle inward, dividing each corner into thirds. The right corner should be folded over the left corner. Once folded, the remaining tail should be situated on the right side, just below the fold of the right corner.

Thread the tail onto a tapestry needle. Utilize a whip stitch to secure the bottom of the triangle, ensuring that you pass the needle through all the layers/folds to firmly secure the base.

Once you reach the left corner, employ a running stitch to gently fasten the right fold to the basket's body. Consider adding a few additional stitches at the junction of the two folds for added strength.

Near the loop, you have the option to leave it as it is or enhance it by wrapping a strand of yarn around the loop's base, creating a tassel-like effect.
